Robert H. Decker - Engineer

After graduation from high school Mr. Decker attended the University of Cincinnati under the ESMWT program. Upon completion of this training he served as an engineering aide in the airborne radar section at Wright Field, Ohio. He served from 1943 until 1945 with the Signal Corps in the European Theater, supervising the installation, operation and maintenance of radio equipment.

Mr. Decker received his degree of B.S. in Electrical Engineering from Purdue University in 1949. His pre-engineering training was obtained at Evansville College.

Mr. Decker joined the staff of Electronics Research, Inc. in July 1949 where he has been engaged in the development of high power oscillators and amplifiers in the VHF and UHF regions.
